DESCRIPTION

This enhanced-visibility work t-shirt offers a unique design to stand out during the day! The dark color on the lower part makes the t-shirt less prone to showing dirt. The t-shirt is lightweight and breathable ensuring maximum comfort. It dries quickly thanks to the fabric's knit, which absorbs sweat when it touches the skin and transfers it to the outer layer so it evaporates faster. It is standardized to protect against exposure to solar ultraviolet radiation with UPF50+ and certified UPF40+.

COMPOSITION

Fabric: 100% polyester.

CARE

Machine wash at 60°C or hand wash in cold water. (Moderate visibility performance guaranteed for 50 washes). Line drying recommended.

STANDARD EN 17353:2020 + A1:2025

This equipment complies with the **EN 17353 type A** standard. It is designed to enhance the user's visibility during daylight hours only. It contains fluorescent materials but does not have retroreflective strips.

STANDARD EN 13758-2:2003 + A1:2006

Compliant with the **EN 13758-2: 2003 + A1: 2006** standard, this garment provides certified UV protection with a UPF rating of 40+, filtering more than 97.5% of UVA and UVB radiation. It helps reduce sun exposure on covered areas during extended outdoor activities.
