

V-Gard® Mesh Visors for Forestry Applications

Face Protection - Technical Data Sheet

All V-Gard visors easily fit to V-Gard Headgear brow guard and on V-Gard frames for all V-Gard helmets.

The NEW V-Gard Mesh Visors ensure reliable protection, excellent visibility and good water run off. Due to the wide-meshed stainless steel in honeycomb design the light reduction is just ~26%. Coated in brown the light reflection is reduced. Even in humid environments the wearer comfort is for sure.

V-Gard Mesh Visors are lightweight and durable, bounded with heavy-duty plastic. Compared to other visors in the market the impact protection is higher, certified for EN166 "F" 45s/m.

With a wide face coverage they are ideal for applications such as brush clearing and trimming. Due to their specific shaping they work perfect with helmet mounted ear muffs. A visor version for simple adaptation of V-Gard retractable or standard chin protectors is available.

For different visor versions, frames and chin protectors please see the separate datasheets.

P/N	Key Specifications							Masterpack: Selling Unit Qty
	LxW (mm)	Weight (grams)	Light Transmission	Use with Ear Muffs	Use with Chinguard	Approval	EAN Code 13	
10155774	203x432	68	74%	Yes	No	EN1731-F	0641817074046	10
	203x432	68	74%	Yes	Yes*	EN1731-F	0641817074046	10

More visor versions are EN certified but only available for large orders and longer lead time. Please contact MSA.

Material	Coated stainless steel mesh, bounded with heavy-duty thermoplastic
Marking details	EN1731-F: additional approval to low energy impact (45 m/s steelball)
*Visors for use with Chinguard	Visors marked * should be used with MSAs standard or retractable chinguard, see separate datasheet. Note: Specified visor length does not include the chinguard (approx 75 mm)
Packaging	Specified part numbers correspond to one visor, which is individually packed in polybag with instruction and individual label with barcode EAN code 13. MSA sells in Masterpacks (WxLxH = 250x435x45 mm) of 10 visors.
