

FIREBEATER

DESCRIPTION

Fire beaters can be used to effectively put out general fires in open areas such as grass fires etc. The industrial grade rubber acts as a beater to knock out the flames and halt the fire. It has a fiberglass handle to prevent rotting when stored outdoors.

FEATURES

- Fire resistant rubber beater (30cm x 38cm x 0.6cm)
- Fiberglass tube handle (3.2cm diameter, 120cm length)
