GRIPPS®

GRIPPS® Technical Specification Sheet.

Securpulley®
Models: M06020, M06021

M06020
Securpulley® with Fixed Mount
Max Load: 50KG / 110lbs

M06021
Swivel Mounting Arm
Max Load: 50KG / 110lbs

Securpulley®

SAFETY INFORMATION

⚠WARNING Before using the Securpulley®, read all provided safety information pertaining to the use of your Dropped Tool Prevention (DTP) device. FAILURE TO DO SO COULD RESULT IN INJURY OR DEATH.

The user of a DTP device bears the responsibility of reading all safety information contained herein.
Keep this manual for future reference.

Intended Use:
When used properly, the Securpulley® can prevent workplace hazards resulting from dropped tools. These may include personal injury and material damage.

GRIPPS® does not approve use of this device for any activities not described in the User Instructions. This device is not intended to be used in any recreational activity, as a personal fall-arrest device or in any other manner not described herein.

⚠WARNING Misuse of this device could result in serious injury or death.

Adhere to all manufacturer recommendations regarding the operation and maintenance of this device. For additional information, contact GRIPPS® customer support.

Read and adhere to the following in order to ensure correct operational functionality:

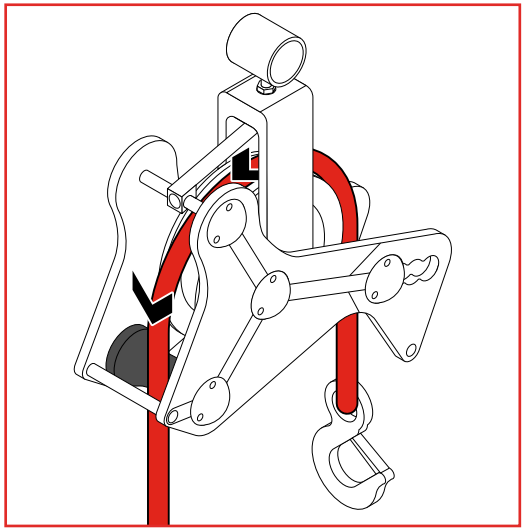

- Your DTP should never be used as a personal fall-arrest device or restraint system.
- Do not use this device with tools that exceed the specified maximum load/weight.
- A DTP device used in applications that exceed the limits of operation specified by the manufacturer should be considered unsafe and should be replaced.
- Do not tether a tool over 2.5kg/5.5lbs directly to your clothing or person.
- Inspect your DTP device before each use.
- Ensure the DTP device is securely connected to a load rated tool connector or anchor point before use.
- Inspect any tool connector point before it is connected to the DTP device.
- Modification of the DTP device voids all warranties and violates manufacturer recommendations.
- Do not use a tool that cannot be connected to your DTP in the manner specified by GRIPPS®.
- It is unsafe to extend the length of the DTP product by any means.
- Do not use this product if it will create an unsafe working environment.
- Use extra precaution around moving machinery, moving parts, electrical hazards, extreme temperatures, chemical hazards, or combustion hazards.
- Avoid contact between the Coil Hard Hat Tether and rough or sharp edges.
- All connected tools and equipment, including connection points, must be compatible for use with this DTP device.
- Always wear appropriate personal protective equipment.
- If a tether has arrested a dropped tool or object, it should be taken out of service and replaced.
- All procedures shown in this instruction are for GRIPPS® Coil Hard Hat Tether products only.

GENERAL USE AND CARE

The SecurPulley® provides a far safer method of lifting materials with much less risk than conventional gin wheels. The SecurPulley® is made in Italy and is fully certified to a max load rating of 50kg.

Before Use:
Thoroughly inspect your GRIPPS® DTP device before each use. Do not use any component that presents deformities or deterioration.

HOW TO USE / INSTRUCTIONS:

Please refer to full instructional booklet from SECURPULLEY® website or instructions received at time of purchase.

Direct link:
www.securpulley.com/eng/img/securpulley-eng.pdf

General directions for the safe use:
- ***Maximum Working Load 50KG***
- ***Maximum Suggested Working Height 30M / 98 FT***
- ***Maximum Working Height 40M / 131FT***

- *Do not install and use the sheave in a different way to how th e instructional booklet indicates.*
- *The working area must respond to the safety requirements foreseen by laws.*
- *In particular it is forbidden to stay below the suspended loads.*
- *Do not use ropes of diameters different from the ones indicate d at chapter 2 of instructional booklet.*
- *Do not use ropes with the diameter reduced by wear below the minimum diameter indicated at chapter 2 of instructional booklet, nor with strands deformed or damaged. The malfunctioning of the sheave and the possible troubles coming out from the use of a damaged rope are under the only responsibility of the user.*
- *Before starting the use of the sheave, check the correct positioning of the setting counterweight related to the working height and rope weight, and test the braking efficiency*
- *For the use of SECURPULLEY® always wear safety gloves and shoes, beyond to other safety individual protection means if any, foreseen by the safety plan of the yard.*
- *Store the sheave in a dry and clean ambient; after the use in presence of powder, clean the sheave, preferably by a compressed air stream.*
- *Do not eliminate, nor substitute with not original spare parts any component of the sheave, not to risk compromising its safety features.*

After Use Care:
Clean and inspect the SecurPulley®. For tougher stains, use warm water and a mild soap or detergent. Do not use again until dry.

Store in a clean and dry environment. Proper care will help to ensure that it will operate effectively and extend its service.
