

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding Protects the palm and fingers from Impact and Shock

- › Made of 4-way stretch polycotton fabric to ensure optimum breathability and comfort
- › Contoured VEP 1/8" padding in the palm and fingers protect from impact and shock
- › Full finger style offers optimum protection
- › Designed to be worn under work glove
- › Great for protection from electric, manual and power tools in applications including construction, assembly, manufacturing, maintenance and warehousing
- › Variations:
501-00 - fingerless style
611-00 - with padding in the thumb web area
712-02 - with grain leather wrist support

Model **601-00**

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.
