

UNIKEY

TECHNICAL SPECIFICATIONS

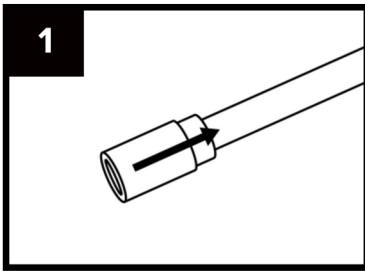

Universal manhole cover lifting key kit with carry case. Includes two handles and a range of interchangeable tips.

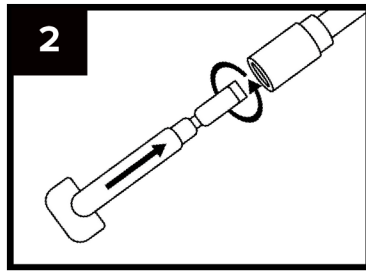

BENEFITS

- **Quality manhole key kit with interchangeable tips**
- **Handles & tips made from heavy duty Carbon Steel**
- **Powder coated handles with quick release mechanism**
- **Includes carry case & tip pouch**

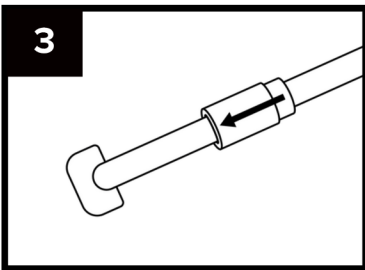

HOW IT WORKS

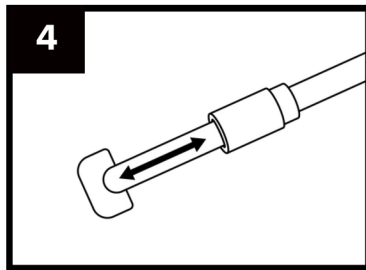

1 Pull the knurled collar back towards the handle.

2 Insert tip and rotate to engage the male end into the handle recess.

3 Release the collar once the tip is fully inserted.

4 Check the tip is locked in place before use.

⚠ IMPORTANT INFORMATION:

- Keep all parts clean and apply grease to the handle mechanism periodically
- To prevent dirt ingress, a key may be left mounted to the handle

Wear foot protection

Wear gloves

Do not exceed stated Safe Working Load
