

Product data sheet for uvex phynomic XG

The Xtra-Grip coating ensures excellent grip in oily environments and makes the glove extremely durable, for greater sustainability and increased safety. The uvex phynomic XG is now made of over 50% sustainable material (polyamide recycle). uvex phynomic cut protection gloves are manufactured at our carbon-neutral production facility in Germany. These touch-sensitive gloves fit like a second skin and meet the highest standards of health protection (proDERM®). And thanks to touchscreen compatibility on all standard screens, tablets and mobile phones, you'll never need to remove the uvex phynomic XG while working.
