

RFP20

DOUBLE FOOT PUMP

The RFP20 is a double barrel foot pump with a single rubber tread plate that makes inflation easier, while rubber feet keep the pump steady during use.

A 600mm flexible air hose and tyre valve thumb lock system make it easier to attach the foot pump securely to the tyre.

The analogue gauge is clear to read and shows pressure in both PSI and BAR.

The RFP20 comes with adaptors for using with bicycle tyres, sports balls.
