Trough Screen

The original bespoke trough screen

Say goodbye to channel blocks, blockages and horrible odours and say hello to the product that will transform your trough urinal forever! Introducing the Trough Urinal Screen from P-Wave®; the UK's original urinal screen designed specifically for Troughs! Simply place a couple of screens in the urinal, ideally covering the drain areas or clip together and run along the full length of the urinal for unrivalled odour control and splash reduction! Perfect for high traffic areas such as stadiums and concert venues.

At a glance:

- The most effective solution for controlling trough urinal odour
- Hundreds of surface bristles prevent splashback, keeping walls, floors & trousers dry
- Contains beneficial bacteria to help deodorise the drain below the surface
- Fragrance is slow-released over 30 days
- Low VOC (Europe Compliant)
- 100% recyclable
- Easy to install
- Safe to use in waterless urinals
