

TECHNICAL DATA SHEET

CF43 METSHIELD 6" BOOT

DESCRIPTION

The MetShield 6" boot features metatarsal technology that absorbs impact falling objects, and a waterproof leather upper that keeps feet dry even when submerged in water. It has both toe cap and midsole protection made from lightweight, metal-free composite material, plus a heavy-duty scuff cap for added durability. The ultra-hardwearing PU/rubber, HRO rated, ESD certified, anti-slip sole is heat resistant up to 300°C making it ideal for demanding environments. The boot also features a ladder grip sole unit with a transverse profile that gives added stability when climbing or descending ladders.

SIZES

UK 3-13

STANDARDS

EN20345:2022 S7L M
SC LG FO HRO SR
EN61340-5:2016 ESD

KEY FEATURES

- Metatarsal protection
- Waterproof leather upper
- Lightweight metal-free toe cap and midsole
- Heavy duty scuff cap for added durability
- 300°C heat-resistant, anti-slip, ESD certified, fuel oil resistant PU/rubber sole
- Ladder grip gives added stability

FEATURE ICONS

TECHNICAL DATA SHEET

MATERIALS

- Waterproof leather upper
- PU/rubber sole
- Non-metallic toe cap
- Non-metallic woven midsole

TYPICAL INDUSTRIES

- Agriculture & Landscaping
- Airport & Logistics
- Construction
- Engineering
- Utilities
- Rail

CERTIFICATION/MARKINGS

EN ISO 20345:2022 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3L HRO SR. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
