EDGE™

48-939

Medium duty cut protection industrial glove

Cut | Medium Duty

Economical solution for medium duty applications requiring high cut resistance, grip & oil-repellence performance in oily environment

- **Heightened grip:** Featuring a fully NBR-coated seamless liner with a rough palm, EDGE™ 48-939 protective gloves offer a highly secure grip in oily environments, while protecting skin from injuries and oil contamination
- **Gauntlet design:** EDGE™ 48-939 hand protection gloves' gauntlet extends oil repellent area and makes donning and doffing easy.
- **Enhanced defenses:** EDGE™ 48-939 offers a high level of abrasion resistance and cut protection. In addition, the glove provides EN 407 level 1 contact heat protection, making it ideal for workers handling hot equipment, parts and objects.

Industries

- Aerospace
- Automotive
- Glass manufacturing
- Machinery and Equipment
- Energy

Applications

- Machining / Stamping / Cutting
- Grinding
- Assembly of parts
- Maintenance
- Handling of glass sheets, sharpedged objects
