

## Mindray C1A AED Bundle with HypaGuard Indoor Cabinet

- **Comprehensive AED Station** – Includes an AED device, responder kit, posters, signs and an indoor cabinet.
- **Mindray C1A AED** – Bundle is supplied with a fully automatic Mindray C1A AED to provide life-saving intervention.
- **Lockable and alarmed AED Cabinet** – Manufactured from aluminium, this cabinet is designed to be durable and protect your AED from damage.
- **Contains Multiple Signs and Posters** – Includes two posters and three signs to notify staff of the AED location and help untrained personnel feel confident during emergency use.
- **Ideal For** - All workplaces and public environments.

The **Mindray C1A AED Bundle with HypaGuard Indoor Cabinet** is a comprehensive, ready-to-install solution designed to ensure a company's defibrillator is highly visible, securely stored and immediately accessible when every second counts. Including posters, signs, an AED, responder kit and a wall-mountable indoor cabinet, this bundle has everything workplaces need to ensure that they are compliant and that staff and visitors know how to act in emergency situations. It is ideal for high-traffic environments such as offices, schools, gyms, retail spaces, and public buildings as the HypaGuard cabinet provides the perfect balance of protection and visibility. **Key Benefits**

### Product Specifications

- **Comprehensive preparedness** – this bundle includes all the necessary components to create a visible and accessible AED station.
- **Ensures quick action in emergency situations** – having the AED clearly located, supported by building signage and information that identifies AED-trained personnel and their location, enables faster and more effective action during emergencies.
- **Protects the AED unit** – the HypaGuard Indoor AED cabinet keeps the AED clean, dry and safe from damage, by protecting the components from dust, spills and accidental knocks.
- **Provides security and prevents theft** – having the key lock prevents unauthorised access or misuse of the AED and protects the device from vandalism or theft.
- **Battery powered** – the audible alarm and strobe light for this cabinet are powered by batteries so will not be affected by any power outages.
- **Includes an AED Responder Kit** – ensures staff have access to essential items such as a face shield and clothing cutters to support effective casualty treatment.
- **Enables user confidence** – the bundle includes instructional materials tailored to untrained users, which help reduce hesitation in emergencies. The AED itself is also designed to speak and guide through the process.
- **Encourages a proactive safety culture** – having an AED on site demonstrates a commitment to safeguarding the health and wellbeing of staff and visitors, while the signage and posters increase awareness and confidence to act.
- **Wall-mountable** – the indoor cabinet (provided in the bundle) means that the AED and responder kit are stored in a fixed, obvious location, protected from accidental damage while remaining easy to access.
- **Provides peace of mind** – knowing there's an AED on site reduces anxiety among employees and customers, especially in organisations with older populations, visitors, or in higher-risk environments.
- **Value for money** – this bundle includes not only an AED, but also signs, posters, a cabinet and an AED Responder Kit helping ensure staff have the essential equipment needed to respond effectively in an emergency.

**Why Have an AED in the Workplace?** UK workplaces should have an AED (Automated External Defibrillator) because it significantly improves emergency response, demonstrates duty of care, and supports a safer working environment. They are increasingly regarded as an essential part of the modern workplace, helping to save lives, supporting risk assessments, and clearly demonstrating an employer's commitment to health and safety. **Ideal For:**

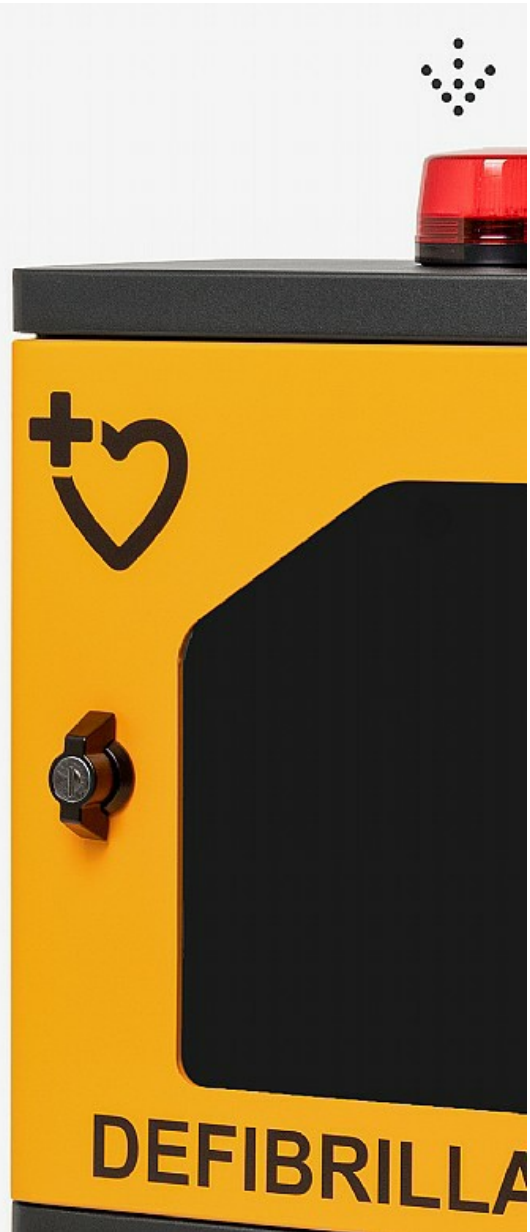

- Offices
- Warehouses, factories and industrial sites
- Retail
- Construction sites
- Hotels and hospitality venues
- Restaurants, pubs and cafés
- Transport hubs
- Education settings
- Gyms and leisure centres
- Event spaces
