

DATA SHEET

Rip-Clip™ Hi-Vis Orange Hydration Rucksack

Ex Stock -Sept 2025

Quick release rucksack in durable waterproof 600D rip-stop polyester; featuring patented Rip-Clip™ quick release system, allowing the rucksack to be safely released from the wearer with a pull of the chest strap, then quickly and easily reassembled. Ideal for use in situations where there is a snagging risk, or in military and police operations where a rapid pack-dump is required.

The 3-part Rip-Clip system replaces the old press stud & velcro versions which rapidly become ineffective by being re-set incorrectly. Rip-Clip's design is simple and fool-proof to re-set. This clip system is currently used widely within the UK rail industry and on Network Rail. Developed in collaboration with Network Rail over 10 years ago, Rip-Clip™ rucksacks are the only approved rucksacks for trackside use in the UK. An operator's guide comes complete with this rucksack.

- **Size: 28 x 44 x 6cm – approx. 7.4 Litre capacity**
- Rip-stop 600D polyester hi-vis orange material meets RIS-3279-TOM + EN20471 colour requirements (colour-fluorescence-chromaticity)
