

## Advantage 400 Series

*On Duty now for the Future*

# Advantage 400 Half Mask

*Comfort meets Innovation*

The innovative Advantage 400, a new member of the Advantage family of full face and half masks, convinces through exceptional comfort and sophisticated design.

An important characteristic of the Advantage 400 is user-friendliness. The innovative patent-pending single loop head harness outshines the competition. It grants the user an intuitional operation and offers high comfort and flexibility. The unique one-piece over-molded silicone nose cup is soft and pleasant to wear and extremely robust.

## Single & Twin Port

The Advantage 400 is available with single thread (Advantage 410) and bayonet twin (Advantage 420) connection. For both versions MSA offers a wide range of different filters, suitable for all applications.

## Easy Donning

The Advantage 400 sets standards never seen before in the area of ease of use. The user can quickly adjust the mask according to his individual requirements.

Place cradle on head and put face piece in place.

Pull down front straps until mask has snug fit and lock adjustment by closing lever.

Close neck buckles and pull on both straps evenly for comfortable and correct fit.

# Convincing through...

## Simplicity

Once the harness is pre-adjusted, each donning only requires three steps.

### 3 Easy Steps and You are protected

- 1 Place cradle on head
- 2 Grab face piece and slide it to the right position
- 3 Connect neck buckles

## Comfort

The sophisticated design offers unparalleled comfort.

### Pleasant to wear

- No pressure points
- Multi-ethnic face seal
- Reduced slippage in hot humid conditions

## Safety

The patent pending single loop harness and one-piece silicone nose cup provide maximum safety.

### Perfect Fit

- Excellent stability on the face
- Great visibility
- No multiple leak points

## Flexibility

The Advantage 400 responds completely to individual user preferences and requirements.

### Free Choice

- Single or twin filter connection
- Small, medium or large nose cup
- Drop-down or non-drop-down mode

## Cost Effectiveness

Due to the well-engineered design, cleaning and maintenance efforts are significantly reduced.

### Only 3 Major Components

- Single loop head harness
- One-piece nose cup
- 4-point yoke

MSA patent pending

## The Head Harness: Innovative

The unique combination of innovative features makes the head harness the absolute highlight of the Advantage 400.

### One-Piece Harness

Eliminates pressure points on head and provides greater visibility as there are no loose straps

### Neck Buckles

Enable intuitive handling due to "snap" that indicates locking

### Adjustable Cradle

Provides perfect adaptation to different head sizes

### Wide Straps

Minimise twisting and cutting in the nape of the neck

MSA patent pending

## The Nose Cup: Comfortable

The one-piece nose cup is made of soft over-molded silicone and rigid plastic. This results in unparalleled wearer comfort.

### Low Profile Design

Integrates extremely well with other PPE (e.g. head, eye and hearing protection)

### Over-Molded Silicone & Plastic

Offers extraordinary stability on the user's face

### Multi-Ethnic Face Seal

Fits a broad population of users in different regions

### Downward Facing Exhalation Valve

Avoids projection of exhaled humid air and reduces fogging on face shield

MSA patent pending

## The 4-Point Yoke: Well-Engineered

The sophisticated 4-point yoke provides high flexibility and guides the harness straps to a perfect fit.

### Innovative Lever

Enables the quick and easy switch between lock-down and drop-down applications

### Lock-Down

Permits setting the harness to the proper fit by closing the lever (mask can then be reused without further adjustments)

### Drop-Down

Allows removing the mask and carrying it safely along the chest while wearing other PPE

### Non-Drop-Down

Provides the option of fixing the harness straps according to individual requirements

## Advantage 400 at a Glance

	Features	Benefits
Simplicity	Unique harness assembly	Makes for easier donning and doffing
	Drop-down mode	Allows the user to remove respirator and carry it safely along the chest while wearing head protection
	Lock-down mode	Provides the user with the option of fixed sizing (mask can be reused without further adjustments)
	Innovative lever	Enables a quick and easy switch between lock-down and drop-down mode
Comfort	Flat single loop harness	Eliminates pressure points on head when head protection is used
	Multi-ethnic face seal	Adapts to a broad range of faces globally
	Wide straps	Minimises twisting and cutting in the nape
	Chin cup with built-in drain hole	Reduces slippage of face piece in hot humid conditions
Safety	One-piece nose cup made of soft over-molded silicone and rigid plastic	Offers excellent stability on the user's face and eliminates multiple leak points
	Textured inner seal of face piece	Maintains good face piece fit
	No loose or dangling straps	Provides greater visibility
	Downwards pointing exhalation valve	Avoids projection of exhaled humid air and reduces fogging on face shield lens
Flexibility	Low profile design	Integrates extremely well with other PPE
	Adjustable cradle and 3 face piece sizes	Provides perfect adaptation to different head sizes and facial contours
	Drop-down and non-drop-down option	Allows customization of the mask
	Single (410) and twin (420) filter variant	Offers the possibility of choosing a model according to individual preferences
Cost Effectiveness	Only 3 major components	Makes cleaning and maintenance much easier
	High quality silicone	Offers great durability
	Uses existing MSA filters	Minimises inventory
	Two versions – one design (twin and single connection)	Reduces test and training costs

# Technical Specifications

Materials	
Nose cup	Liquid silicone rubber and nylon
Yoke	Polyoxymethylene (POM)
Head harness	Polyester (PES) and Lycra
Inhalation valve	Neoprene
Exhalation valve	Liquid silicone rubber
Neck buckles	Polypropylene (PP)

Approvals
EN 140, NIOSH, GOST, AS/NZ

Weight without filters		
Size	Advantage 410	Advantage 420
Small	171 g	148 g
Medium	174 g	152 g
Large	179 g	157 g

## Ordering Information

Advantage 410 (with single thread EN 148-1 connection)	
10102276	Advantage 410, small
10102277	Advantage 410, medium
10102278	Advantage 410, large
The weight of a single filter shall not exceed 300 g when used with the Advantage 410	

Advantage 420 (with twin bayonet MSA connection)	
10102273	Advantage 420, small
10102274	Advantage 420, medium
10102275	Advantage 420, large

Single thread filters (EN 143, EN 14387)	
10094376	Particle filter P3 R PlexTec (pack of 10)
10098113	Gas filter 90 AB
10097993	Combined filter 93 AB/St
R = Reusable according to EN 143:2000/A1:2006	

Twin bayonet filters (EN 143, EN 14387)	
430375	Advantage filter P3 R
430374	Advantage filter ABEK P3 R
10030510	TabTec A1 gas filter
10038476	TabTec ABEK gas filter
10027639	FLEXIfilter P3 R
R = Reusable according to EN 143:2000/A1:2006	

This is just an excerpt from our comprehensive filter range. For more filter versions please see leaflets 05-100.2 (for single thread filters) and 05-517.2 (for twin bayonet filters).
