Premium Scenting Solutions

USER MANUAL BARREL

Please read the user manual carefully before using the product and keep it in a safe place.

Safety Precautions

1. Do not use overloaded or damaged power supplies, USB ports and sockets. If used, it may endanger your safety and may cause fire.
2. Please do not open the inside of the scent delivery system as this may cause damage. If the scent delivery system works in error, please read the user manual carefully and follow the normal procedure or consult after-sales.
3. When the scent delivery system is working, do not disassemble the scent delivery system or shake the scent delivery system.
4. Do not put the scent delivery system or power adapter in water. Do not put water in the fragrance bottle.
5. When the scent delivery system is already filled with fragrance oil or cleaning solution, do not invert, tilt or rotate the scent delivery system to prevent liquid spillage and damage of the scent delivery system and surfaces.

Product Instruction

The EcoScent BARREL features advanced diffusion technology that converts fragrance oil into a fine, dry, mist releasing fragrance safely and directly into your environment without sprays or aerosols. Features: the scent diffusion speed is fast, the atomised particle is fine and smooth, the oil consumption is stable and low.

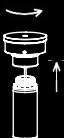

The EcoScent BARREL uses a professional diaphragm pump which can work for 10,000 hours. The EcoScent BARREL has a built in touch panel to control the working time and aroma concentration based on your preference. Barrel can also be programmed using bluetooth via app provided. Leading technology with patented micron atomisation makes the BARREL'S aroma diffuse and spread quickly providing a long lasting fragrance.

MODEL NO.	BARREL	DIMENSIONS	Ø 113 x 280 mm
OIL CAPACITY	100ML	N.W	1.25kg
COVERAGE AREA	300 CUBIC METERS	VOLTAGE	DC5V
POWER	2.5W	NOISE	<38dba
OIL CONSUMPTION	1ML PER 100 ON 100%	INSTALLATION METHOD	Stand Alone

Installation Instruction

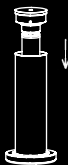

Rotate the top of the barrel anticlockwise to separate it from the bottom of the barrel. The oil bottle shall be revealed.

Screw the oil bottle clockwise to separate it from the top of the barrel and pour a maximum of 100ml of oil into the bottle.

Replace the oil bottle by screwing it back into the top of the barrel anticlockwise.

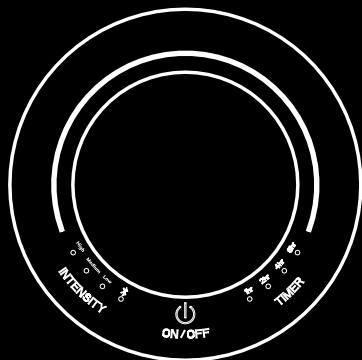

Reconnect the top of the Barrel tightening it clockwise.

Your BARREL is ready to use.

Settings

Power ON

Connect the USB cable to base of the scent machine. Insert the other end of the USB into a power adapter to turn on. Connect to the power supply. ON/OFF will light up in red and show the device in standby mode. Please ensure the unit is placed with at least a 30cm distance between the unit and any surface above it.

Working Time Setting

Press [TIMER] to set the working time for 1, 2, 4 or 8 hours. The corresponding indicator light will light up. When [30S] is lit up in blue, this indicates that the system will work for 60 seconds then pause for 30 seconds. This applies for interval 30, 60, 120, 300 seconds. The work time is 60 seconds in any configuration. EcoScent Barrel can also be set up via Bluetooth using the app.

Intensity Setting

[INTENSITY] should light up in blue, indicating the current aroma concentration is at its lowest. Press this to set the required aroma concentration. Mode 1 is weakest and Mode 4 is strongest.

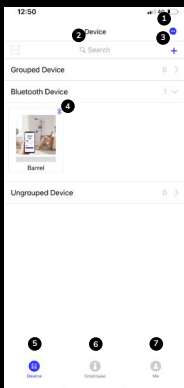

Setting Up Bluetooth Function

Scan the code and download the app on to your device.

1. Sign up to Aroma World using your phone number or email address. Then proceed to log in into your account.

2. Interface.

- ① All operation messages.
- ② Confirm the device serial number displayed to add the scent machine.
- ③ Add another device if more than one device is being used.
- ④ Entering work time setting and intensity.
- ⑤ Device management interface.
- ⑥ Staff management interface.
- ⑦ Personal account interface.

3. Adding the device.

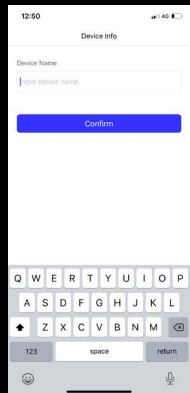

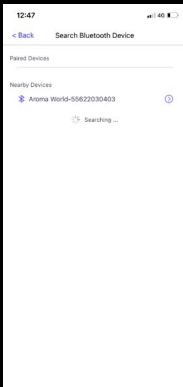

a. Press INTENSITY button for 5 seconds on the device until the Bluetooth blue light indicator turns on.

b. Make sure you have the phone location/GPS and Bluetooth turned on and select the “+” sign in the upper right corner of the APP device management interface, select and click “Add Bluetooth device”.

c. Select the available device searched and a verification authorisation code window will pop up at this time, enter the authorisation code “666666” to confirm.

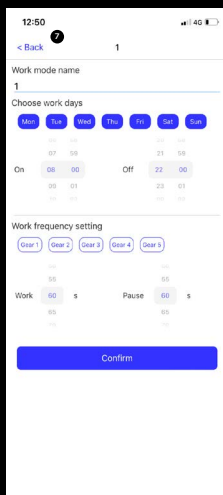

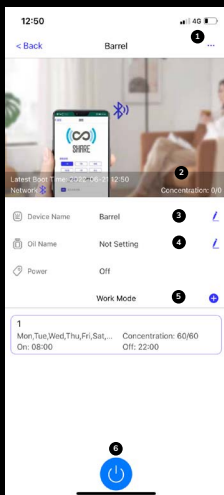

d. Input the device name eg. Barrel Office.

e. Add the fragrance name if required.

5. Device Interface.

- ① Device menu: serial number, device type, delete
- ② Current device information: device name, latest boot time, network status, concentration.
- ③ Device name.
- ④ Fragrance oil name.
- ⑤ Current operation mode.
- ⑥ Device switch button.
- ⑦ Work time and concentration settings.

Scent System Nozzle Change Guide

Before changing the nozzle try using the Cleaning Solution for 10 minutes, this will attempt to unblock any oil residue. Occasionally the nozzle can remain blocked and needs changing. Should your scent system be dispersing less or no fragrance you may need to change the scent dispersal nozzle. Follow the steps below.

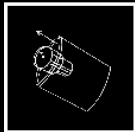

STEP 1

The nozzle is located in the top half of the machine which is connected to clear the tube, which is used to take the fragrance out the bottle.

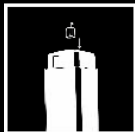

STEP 2

Gently remove the nozzle by pulling it out of scent delivery system. In case of the part being placed very firmly - use pliers to remove it. Some fragrance oil or cleaning solution may be present, ensure you take care of clothing and surfaces in case of any spillages.

STEP 3

A spare nozzle comes with the unit.

STEP 4

Gently place new nozzle back in the scent delivery system and replace the clear tube.

ALL DONE!

You can sit down, relax and enjoy your favourite fragrance!

Scent Delivery System Maintenance

For scent delivery system maintenance advice please refer to our "Clean-Me Guide". Clean with a EcoScent cleaning solution every 2 months or if changing the fragrance. Do not use the water in the scent system. Do not tilt the scent system. Please ensure the fragrance oil is replenished regularly.

Troubleshooting

FAULT	SOLUTION
SCENT DELIVERY SYSTEM IS NOT WORKING	<ul style="list-style-type: none">- Check the power supply.- Check if the power is on.- Check scent delivery system working time.
WEAK OR NO ATOMISATION	<ul style="list-style-type: none">- Check if the nozzle is blocked- Check if the oil pump tube is attached correctly.
OIL LEAK	<ul style="list-style-type: none">- Check if the scent system is upright.- Check is the bottle washer isn't broken.- Check the connection of the oil bottle and atomiser is closed tightly.
