ROADsight 2500 HD Dash Camera

An OSRAM dashcam can offer peace of mind while driving in your car. With a full 1080p 30fps resolution and 140-degree lens, you get high quality recordings with a wide view of the road and pick up features easily such as number plates and road signs.

Safeguard your journey - Automatically save footage from your dashcam when a collision occurs to save evidence for later use. Save up to 128 GB of footage with an SD card.

Be road ready
