

COSHH Risk Assessment

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packed in 12.5 kg tub. Product is supplied ready to use.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	If manually handling then trained employees should handle only single case at any given time. Take care not to drop the containers. Ensure that the caps are secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original container.	Minimal risk of slippery floors through spillage if packs are damaged on receipt.	Avoid extremes of temperature.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not split or blown.
USAGE			
Use directly from tub.	Minimal risk of eye contact when used as directed.	Always read manufacturers 'How to Use' instructions prior to use.	Provide dispensers and 'How to Use' information.
DISPOSAL			
Empty containers are not classed as hazardous waste. Use normal industrial or domestic waste procedures. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Minimal risk of eye or skin contact.	No risks identified. Wash spills to foul drain with plenty of water.	Cosmetic product, PPE not required.
