

# YUASA 12V 2.8AH BATTERY

## PRODUCT INFORMATION

The Premium quality lead acid Yuasa 12V 2.8Ah Battery utilizes Yuasa's unique electrolyte suspension system incorporating a microfine glass mat to retain the maximum amount of electrolyte in the cells. They have superior energy density and superb recovery from deep discharge.

- Superb recovery from deep discharge
- Lead calcium grids for extended life
- Electrolyte suspension system
- Superior energy density

## TECHNICAL SPECIFICATION

Model Number	120-1001
Product Code	120-1001
Width (mm)	67mm
Overall height (mm)	64mm
Length (mm)	134mm
Ah	2.8
Voltage	12
