

Cut

Medium Duty

## Cost effective solution for medium weight applications requiring cut and abrasion resistance in dry environment

- Seamless liner and knitted wrist offer close fit in cut-resistant applications.
- EDGE 48-701 and 48-705 gloves offer two levels of cut performance (depending on the application) a high level of abrasion resistance and good sensitivity and fit.
- Palm PU coating provides protection in slightly oily environments.
- Cost-effective alternative compared to medium weight leather, thick cotton or aramid gloves.

### Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

### Applications

- Aeronautics
- Assembly line
- Assembling metal parts and components
- Handling sharp or irregular metal pieces
- Molding
- Plastic injections

### Key Features

- Good dexterity and flexibility.
- High cut protection and abrasion level.
- Good grip in dry environments.
- Palm dipping for good protection against oil compared to a knitted or cut and sew glove.

### Vulcanization Chemical Accelerators

- Natural rubber proteins

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards & Regulatory Compliance

REACH Compliant
