

Breathe safely. Everywhere. Anytime.

Article number: F02.1.006

STEALTH FFP3 respiratory mask

- Reusable - up to 7 shifts
- High filtration efficiency of > 99 %
- Anti-allergenic mask
- Latex and silicone-free
- Downward-facing exhalation valve prevents fogging
- Conforms to EN149:2001 + A1:2009

Article number: F01.1.043 - S/M

Article number: F01.1.044 - M/L

STEALTH respiratory mask with face-fit-check and P3-filter

- Lightweight and compact design
- Up to 55 % less breathing resistance
- Filter efficiency up to 99.99 %
- Latex and silicone-free
- Lightweight and compact design for a wide field of view
- Conforms to EN140:1998 and EN143:2021

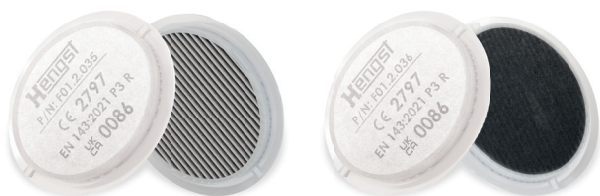

Article number: F15.1.008

STEALTH Visor respiratory mask with face-fit-check and P3-filter

- Lightweight and compact design
- Up to 55% less breathing resistance
- Filter efficiency up to 99.99%
- Integrated goggles class 1 F K N (EN166)
- Latex and silicone-free
- Lightweight and compact design for a wide field of view
- Conforms to EN140:1998, EN143:2021 und EN166:2001

FILTRATION

Art. no. replacement filter: F01.2.035

Art. no. odour filter: F01.2.036

STEALTH P3 replacement filter

- Advanced filter technology with up to 55% less breathing resistance
- Pre-filter as standard to reduce filter blockage
- Filter efficiency up to 99.99%
- Conforms to EN143:2001

STEALTH half mask incl. face-fit check with combination filters A1P3, A2P3 & ABEK1P3

- Advanced combination filter with activated carbon to neutralise odours and gases from paints and solvents
- Anti-allergenic mask
- Filter efficiency up to 99.99%
- Latex and silicone free
- Mask Conforms to EN140:1998
- Filter Conforms to EN14387:2021

Art. no. mask: F14.1.007 - S/M

Art. no. mask: F14.1.008 - M/L

Article number A1P3: F14.2.008

Article number A2P3: F14.2.009

Article number ABEK1P3:

F14.2.010

Powered Air Purifying Respirator (PAPR) TH3

- High-performance TH3 filter with 99.98 % filter efficiency
- Belt loop system for maximum comfort during extended periods of wear
- Class F03 1 F K N EN166 visor
- Li-Ion battery with up to 8 hours of continuous operation
- Flow rate 220 - 266 liters per minute
- Conforms to EN12941:1998 + EN166

Version 1

- Foldable forehead protection
- Visor with high scratch and damage resistance and wide field of vision

Article number:
F15.1.003

Version 2

- Foldable forehead protection
- Combination visor with welding protection to EN175 B & EN379 1/1/1/1

Article number:
F15.1.004

Version 3

- Adjustable hard helmet according to EN397
- Visor with high scratch & damage resistance and wide field of vision

Article number:
F15.1.001

Version 4

- Adjustable hard helmet according to EN397
- Combination visor with welding protection according to EN175 B & EN379 1/1/1/1

Article number:
F15.1.002
