

Dräger X-plore 8000 Hoods Headpieces for PAPR and Airline Systems

The Dräger X-plore 8000 hoods are essential components for the X-plore 8000 powered air-purifying respirators for ambient air applications and are also compatible with the Dräger X-plore 9300 airline device for independent air supply applications. The hoods are available in various lengths and offer light and comfortable protection with the highest safety level for open headpieces.

Dräger X-plore 8000 Hoods

Low-noise material

Standard and premium hood made of soft and comfortable low-noise material

Low distortion

Spacer on top of the visor gives the visor a defined curvature and therefore low distortion

D-11995-2024

Stable fit

Good, stable and comfortable fit even when user is moving due to optimised design/cut

Guided air inlet

Wind deflector inside the hose connector leads the air away from the wearer's head; avoids cold feeling at a single spot

Perfect fit

All hoods available in two different sizes

Benefits

The Dräger X-plore 8000 system: Designed for full compatibility

No matter how tough the conditions, the X-plore 8000 system from Dräger provides maximum respiratory protection without increased breathing resistance, even during long periods of time. Depending on the system configuration, it can also offer protection for the head, face including eyes, and hearing.

The system consists of either an X-plore 8300, X-plore 8500 or X-plore 8700 powered air-purifying respirator for applications dependent on the ambient air or the X-plore 9300 compressed air line system for working with an independent air supply. Both are combined with a headpiece such as an X-plore 8000 helmet, visor, hood or X-plore mask (X-plore 9300: only for loose fitting headpieces). The components can easily be combined for different use cases. No matter which product combination you choose, you can always rely on your equipment for maximum performance.

Dräger X-plore 8000 hoods: Maximum comfort and safety

Dräger X-plore 8000 hood series offers the highest level of safety. In addition, the hoods are extremely light, making them very comfortable, even during longer use. And the hose connection's intelligent air distribution makes them extremely comfortable, as it prevents cold feeling at a single spot.

You have a choice of two sizes to ensure a perfect fit. The hoods are also available as a standard design or as a premium model, each in short or long versions. So, you can always find the right solution for the job. The hoods are recommended for use in all areas where no additional mechanical head or eye protection is needed.

System Components

D-3457-2023

Dräger X-plore 8500

Challenging working environments require a robust and reliable protective solution. The X-plore 8500 powered air-purifying respirator delivers uncompromising respiratory protection against particles, gases and/or vapours combined while ensuring high wearing comfort with no breathing resistance. Benefit from versatile combination options with the X-plore 8000 filter portfolio, a wide range of headpieces, carrying systems and other system components.

D-3469-2023

Dräger X-plore 8700

Potentially explosive work areas place special demands on personal protective equipment, such as respiratory protection. Thanks to its ATEX certification and dedicated safety functions, the X-plore 8700 blower filter system is the ideal companion for working in potentially explosive atmospheres. The system thus offers reliable protection against particles, vapours and gases combined with a high level of wearing comfort, even in Ex zones 1, 2, 21 and 22.

D-10165-2024

Dräger X-plore 9x00 and PAS X-plore

The Dräger X-plore 9x00 series is designed for light-duty industrial applications and provides comfortable and reliable respiratory protection. Thanks to such features as the unique safe-flow reducer and auto-test function, wearers can enjoy more operating convenience, safety and flexibility.

Dräger X-plore 8000 Helmets

Helmet options in the Dräger X-plore 8000 series provide combined head and respiratory protection with high comfort. Different lengths and materials for the neck seal allow quick and easy adaptation to specific applications. These helmets are compatible with all powered air-purifying respirators in the Dräger X-plore 8000 series and the Dräger X-plore 9300 airline device.

D-15897-2024

Dräger X-plore 8000 Head Pieces with Hood

The Dräger X-plore 8000 helmet/bump cap and hood combination provides reliable protection in heavily polluted or contaminated environments. The combination of head protection and hood is an integral part of our Dräger X-plore 8000 powered air-purifying respirator systems and our Dräger X-plore 9300 compressed air line device.

D-3434-2023

Dräger X-plore 8000 Face Shield

The Dräger X-plore 8000 face shield provides effective protection for the eyes and entire face. As an integral part of the X-plore 8000 series, it is compatible with X-plore 8000 powered air purifying respirators and the X-plore 9300 airline device.

D-9134-2023_D-9119-2023

Dräger X-plore 8000 Welding Visors

Regardless of whether you are dependent on ambient air or working independently, the welding visors are an integral part of our X-plore 8000 powered air-purifying respirator system and X-plore 9300 compressed air line device.
