

GRIPPS®

HS-4010 “TOOL TETHERS MUST BE USED” MANDATORY SIGN

The GRIPPS® HS-4010 “TOOL TETHERS MUST BE USED WHEN WORKING ABOVE 2 METRES” mandatory sign is a rigid corflute safety sign engineered for high-visibility communication in elevated work areas.

Sized at 600 mm (W) x 450 mm (L), it provides clear, standardised instruction to reinforce dropped-object prevention controls and promote correct tool tether use on site.

The sign complies with AS1319 requirements, supporting consistent safety messaging across workplaces. Suitable for deployment at access points, exclusion zones, and work-at-height areas where mandatory tethering policies apply. Custom branding is available on request.

ENGINEERED FOR DROP PREVENTION
