

HONEYWELL HL400™-AM ANTIMICROBIAL- PROTECTED DISPENSER FOR EARPLUGS

Experience Cleaner Surfaces

Honeywell
HOWARD
LEIGHT

ADDED PROTECTION. AROUND THE CLOCK.

Maintaining clean workspaces is important for every business. Introducing Honeywell's HL400-AM earplug dispenser – with built in antimicrobial properties to protect the dispenser against stains, discoloration and odors caused by mold, mildew and bacteria.

Enjoy cleaner surfaces from a dispenser with enhanced cleanliness.

HEARING PROTECTION – HYGIENICALLY DISPENSED

Benefit from your trusted hearing protection, now provided from a dispenser with built-in enhanced cleanliness.

Thanks to the antimicrobial-protected turn knob and catch tray surface, earplug dispensing is now cleaner.

The antimicrobial additive releases slowly to reduce the bioburden on the turn knob and catch tray, ensuring the product remains clean and does not require extra cleaning, thus, driving cost savings. **This product does not protect users or others against disease-causing organisms.***

HL400-AM

Antimicrobial-Protected Dispenser

**Universal hole
positions – eliminates the
need to drill new holes;**

**Available with prefilled canister
and multiple refill options:**

- Replace the empty canister.
- Refill the canister with a traditional zip-top bag.

HL400™-AM YOUR CHOICE IN HEARING PROTECTION

Allow employees easy access to hearing protection and make sure that the choices are specifically matched to the work environment.

A SELECTION OF HIGH-QUALITY EARPLUGS

HL400 antimicrobial-protected dispensers are compatible with any model from Howard Leight's wide range of in-ear hearing protection, providing the right fit for every user in every environment. Howard Leight's disposable foam earplugs are available in different sizes, shapes, materials and attenuation levels that accommodate both personal preferences and specific applications.

PRE-FILLED OR REFILL

Ensure your teams with a sufficient stock of suitable hearing protection. Howard Leight offers two convenient ways to keep your dispenser full. Choose pre-filled canisters of 400 earplugs, made of recyclable plastic, or be more environmentally friendly by reusing the canister with the refill zip-top bags of 200 earplugs. No matter which version you prefer, HL400 provides you with a cost-effective solution, helping you reduce expenses while eliminating waste.

TABLETOP OR WALL MOUNT.

The HL400-AM base can fit on existing wall mounts of other dispensers, including competitor mounts, eliminating the need to drill new holes. The table base can also be mounted to a horizontal surface to ensure stabilization and prevent movement.
