

SHARK
Safety Knife

COLOURS AVAILABLE

INSTRUCTION GUIDELINES

The Shark Safety Knife is a 'moulded' version of the 9mm Big Fish Safety Knife, with 'opposing slopes' at the blade exit for a more efficient cut. The rescue version comes without the retractable hook blade at the tail.

Clothing

Stretch / Shrink / Bubble Wrap

Strapping / Banding / Cable Ties

- Also suitable for cutting sheeting, shoelaces, cord, netting, etc.
- Blade must be changed regularly to maintain optimum sharpness
- Tamper proof option available (disposable - blade cannot be changed)
- Materials to be cut under tension

Rope (up to 12mm)

BLADE CHANGE

Remove locking screw & slide the top half of the knife back until you can lift it off. Reverse or replace blade(s) with care. Replace top half of the knife & slide back into place. Replace locking screw.

Replacement blades & nylon holster available
