

# 19 88 IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding  
 Protects the palm and thumb web area from Impact and Shock  
 Wrist support protects from Repetitive Strain Injuries (RSI)

- › Made of 4-way stretch polycotton to ensure optimum breathability and comfort
- › Contoured VEP 1/8" padding in the palm and thumb web area to protect from impact
- › Fingerless style leaves fingers open for tactile feedback and mobility
- › Designed to be worn under work glove
- › Detachable leather wrist support prevents over flexion and over extension to help prevent RSI
- › Great for protection from hand tools and power tools in applications including construction, assembly, manufacturing, maintenance and warehousing

Model 714-20

› Variations:

502-00 - without wrist support

704-20 - glove with grain leather cover

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

CE In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves

**Sizing:** Measure the circumference of the hand at the base of fingers.
