

TECHNICAL DATA SHEET

SRC05 HYGIENE WELLINGTON

DESCRIPTION

Ideal for indoor cleanroom environments such as food preparation, medical and pharmaceutical where there is a risk of slipping on wet or dry tiled surfaces, Blackrock's Hygiene Wellington features waterproof PVC nitrile construction with a washable nylon lining. It has a steel toe cap with heavy duty bump cap for added durability and a kick spur on the heel for easy removal. The sole is anti-slip, anti-static and fuel oil resistant.

SIZES

Size 3-13

STANDARDS

EN20345 S2 SRC

KEY FEATURES

MATERIALS

- PVC nitrile
- Nylon lining
- Steel toe cap

TYPICAL INDUSTRIES

- Pharmaceutical
- Hygiene & catering

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
