

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding Protects the palm from Impact and Shock

- › Made of nylon fabric to ensure optimum breathability and comfort
- › Contoured VEP 1/8" padding in the palm
- › Fingerless style leaves fingers open for tactile feedback and mobility
- › Grain leather cover offers abrasion protection and glove durability
- › Great for protection from hand tools and power tools in applications including construction, assembly, manufacturing, maintenance and warehousing
- › Variations:
 - 501-00 - polycotton liner without leather
 - 501-10 - with suede leather cover
 - 703-20 - with grain leather wrist support

Model **501-20**

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.
