Evo Recycled® Absorbent Socks 120cm x 8cm - Poly Pack

Evo Recycled® 20 Oil preferential absorbent socks made from recycled cotton fibres. EVO sustainable natural fibre absorbent socks are easy to mould and shape around equipment and machinery and absorb both oil and water based liquids and non-aggressive fluids. Place around the base of leaking machinery to absorb leaks on contact or place at the edge of spills to contain and absorb efficiently. Absorbs over 25% more than standard polypropylene pads. Outstanding oil retention properties Reducing floor contamination and the need for secondary cleaning. Ultra-low carbon footprint, high performance and environmentally friendly. For use on oil leaks and spills in the workplace for quick and efficient clean-up. Suitable for use with Coolant, Antifreeze, Oil, Water, Weak chemicals, Solvents. EVO spill products provide a unique solution for companies pursuing higher ethical and environmental standards without compromising performance and value. Each product in the range is manufactured from recycled or sustainable material. All EVO products are manufactured in Britain with a far smaller carbon footprint than the vast majority of Spill Control products produced overseas. EVO poly-wrap & box packaging recyclable
