

Workplace First Aid Kit Refill BS8599 (Small)

- British Standard Compliant First Aid Kits Contents & Refill Packs
- Cost effective
- British Standard Compliant
- Available for small, medium and large kits

First Aid Kit Content & Refill Packs provide quality products in a cost effective manner. This product is either used to re-stock used kit components, as standalone components or supplementary components. They are all fundamental in complying with British Standard requirements as well as being able to give first aid in case of a casualty.

There are three sizes of refill pack available, dependent on what size kit you are restocking - small, medium, or large; each with varying quantities of each product in, and all offering great value for money. These refills contain everything you need to fully re-stock a British Standard workplace first aid kit.
