

Bluetooth DAB/DAB+ Receiver

NEW PRODUCT

SWDAB3 Bluetooth DAB/DAB+ Receiver

Barcode: 5026637 677 991

This 12V adaptor enables motorists to receive both DAB and DAB+ radio stations via the vehicle's FM radio. DAB+ is a radio signal that provides a stronger reception and a higher quality audio.

It also features Bluetooth connectivity for linking smartphones for either hands-free calling or to play tracks from streaming apps such as Spotify, Apple Music and YouTube. In addition, it includes two USB charge ports and a USB input port for playing back songs stored on a flash drive.

- Receives both DAB and DAB+ radio stations
- Bluetooth connectivity for linking your smartphones
- Maximum USB charge output: 5V/3.0A
- Micro SD card compatibility: 1GB to 32GB
- Suitable for most vehicles
- Supplied with DAB antenna
