

# Safeline® Insulated Electricians Gloves

■ CLASS 00: SIG-00-36-08-11 ■ CLASS 0: SIG-C0-36-08-11

## Product Description

These cement-dipped rubber gloves from Safeline® offer excellent protection against electrical hazards. With two options available (500V or 1000V resistant), these gloves are ideal for those working in the utilities and automotive industries.

## Product Details

- Thin, cement-dipped rubber gloves that offer excellent dielectric protection!
- The cement dipping process allows these gloves to remain thin and provide excellent dexterity and tactility.
- Patented manufacturing technology improves shelf life when compared with latex alternatives.
- Ergonomic glove shape minimises hand fatigue over prolonged use
- Flared cuff sits comfortably over workwear garments

## Technical Information

Glove Material:	Cement-Dipped Natural Rubber
Sizes:	M / L / XL / 2XL
Packaging:	1 Pair Per Bag / 40 Pairs Per Case
Sold As:	Pairs

**Safeline**

## Features & Applications

Dielectric

- Industry:
- Automotive
  - Utilities

- Tasks:
- Electric Car Servicing
  - Electricity Distribution & Transmission Lines

## Standards & Conformity

EN 60903

This product conforms to:

- Conforms to EN 60903
- Conforms to IEC 60903
