

FIRECHIEF® HOT WORK KIT

The first 'all in one' kit developed especially for contractors who carry out Hot Work on site – all wrapped up in a handy portable bag!

Each Hot Work Kit® contains everything you need to do Hot Work safely:

Plastic pocket for storage of your Hot Work forms

2kg ABC Powder Fire Extinguisher, approved to EN3

1.2m x 1.8m high performance Industrial Fire Blanket, tested and approved to BSEN1869:1997 Annex C Fire Performance Test†

Rolls up into an easy to carry, easy to store bag ready to take onto site.

**PLAY IT SAFE
BE COMPLIANT**

HEAT...SPARKS...FLAMES

Why do you need a Hot Work Kit?

It's the law; all employers and self-employed persons must assess the fire risks in a work area, obtain or self-complete a Hot Work permit for EVERY job BEFORE starting work and ensure that the necessary fire safety equipment is on site in case of an incident.

Welding, soldering, brazing, grinding and drilling are known as 'Hot Work'. All pose fire risks – especially in areas containing flammable or combustible materials.

- Keeps all kit together
- Prevents damage to extinguisher
- Easy to carry to site
- Approved kit with Kitemarks
- Be Hot Work compliant*

*subject to on-site risk assessment
