

BB-FH215

2KW TILTING WORKSHOP PTC FAN HEATER

SPECIFICATION

This compact unit features a ceramic PTC heating element that is highly efficient, providing instant heat on start-up. Coupled with the powerful fan, it will distribute heat over a large area & the 2 preset heat settings make the heater extremely economical, as the maximum output can be set at either 1kW or 2kW. For added safety, the heater has a self-resetting thermal cut-out & tip-over protection that switches the unit off if it is knocked over. It is suitable for use in any room & is ideal for use in homes, garages, warehouses or workshops.

Approx Size: 210 x 130 x 260mm
 Heating Area: 20m
 Voltage: 220-240V~50Hz

3 Heat Settings: 20/1000/2000W
 Max Heat Output: 6,824 BTU/hour
 UKCA/CE
