## SPECIFICATION SHEET

### Shark-H Safety Knife

The Shark-H is the moulded version of the Big Fish safety knife opposing slopes at the back of the blade exit for an efficient cut. This variation comes without a hook blade at the tail, used as a 'rescue' cutter in most scenarios or where a hook blade option is not required.

| <u>Component</u> | <u>Material</u>                | <u>Notes</u>               |
|------------------|--------------------------------|----------------------------|
|                  |                                |                            |
| Knife Body       | 20% Glass filled Nylon Plastic |                            |
|                  |                                |                            |
| Screw            | Brass                          |                            |
|                  |                                |                            |
| Straight Blade   | Stainless Steel                | Reversible and replaceable |
|                  |                                |                            |
