ProSolve Antiviral Disinfectant - Technical Data Sheet

Product Codes: PVAVDI5R (5L), PVAVDI1T (1L Trigger Spray)

Pack Sizes: 5 Litre Refill and 1 Litre Trigger Spray

Product Description

ProSolve Antiviral Disinfectant is a ready-to-use disinfecting and cleaning formulation suitable for use on most non-porous surfaces. It cleans and disinfects treated surfaces and is designed to kill a wide range of germs and viruses when used as directed. The product is suitable for routine hygiene cleaning in commercial, industrial and domestic environments.

Applications

Hard surface cleaning and disinfection
Non-porous surfaces
Washrooms and hygiene-sensitive areas
Commercial and domestic cleaning
Workplaces, offices, depots and shared facilities
Refilling suitable trigger spray bottles from the 5 litre pack

Features & Benefits

Cleans and disinfects
Kills 99.99% of germs and viruses
Kills in 30 seconds under stated test conditions
Proven virucide against Human Coronavirus
Tested to BS EN 1276 and BS EN 14476
Suitable for most non-porous surfaces
Leaves treated surfaces safe for human contact when used as directed
Available in 1 litre trigger spray and 5 litre refill pack sizes

Directions for Use

Spray directly onto the surface and leave for a minimum of five minutes before wiping with a clean, damp cloth. The product can also be applied directly using a clean cloth. The 5 litre pack can be used to refill suitable trigger spray bottles.

Performance Information

Kills 99.99% of germs and viruses. Tested to BS EN 1276 and BS EN 14476. Proven virucide against Human Coronavirus 229E. When tested at a 20:1 dilution, the solution meets the requirements of BS EN 1276 for bacterial activity with a contact time of 30 seconds at 20°C under clean conditions against the referenced strains of Pseudomonas aeruginosa, Escherichia coli, Staphylococcus aureus and Enterococcus hirae.

Composition Information

Contains active substance: Alkyl (C12-16) dimethylbenzyl ammonium chloride (ADBAC/BKC (C12-16)), 0.125g/100g.
Detergent labelling: less than 5% disinfectants.

Typical Technical Data

Appearance: Liquid

Colour: Colourless

Odour: Odourless

pH: Typically 10.0 as supplied

Relative Density: Typically 1.000 @ 20°C

Solubility: Soluble in water

Flammability: Not classified as flammable

Explosive Properties: Not considered to be explosive

Oxidising Properties: Not classified as oxidising

Storage

Store sealed in the original container in a cool, dry and well-ventilated place away from sunlight. Keep container tightly closed when not in use.

Limitations

Use only as directed. Do not ingest. This product is not a medicine. Avoid breathing spray. Do not get in eyes, on skin or on clothing. Test on an inconspicuous area before use if unsure of surface suitability.

Health & Safety

Not classified as hazardous according to the Safety Data Sheet. Avoid contact with skin and eyes. If in eyes, rinse cautiously with water for several minutes and seek medical advice if irritation persists. Always read the product label and Safety Data Sheet before use.

Packaging

1 Litre Trigger Spray - PVAVDI1T

5 Litre Refill - PVAVDI5R
