

GRIPPS®

HS-E02000 “DANGER DROP ZONE” BUNTING SAFETY FLAGS ON ROPE - ORANGE

The GRIPPS® DANGER DROP ZONE Bunting Safety Flags provide a critical visual barrier for worksites where dropped object hazards are present. Engineered for durability and high visibility, this 30m (98.4ft) rope-line features bold orange flags printed with clear safety warnings to ensure personnel remain outside of designated drop zones.

The lightweight yet robust construction allows for rapid deployment across various industrial environments. By establishing a physical and visual perimeter, this bunting is an essential component of a comprehensive dropped object prevention strategy, ensuring compliance with site safety protocols and protecting ground-level workers.

ENGINEERED FOR DROP PREVENTION

KEY FEATURES

High-Visibility

Bright orange flags ensure the exclusion zone is clearly visible from a distance, even in low-light conditions.

Lightweight and Portable

The bunting is easy to transport, deploy, and retract across different site locations.

Extended Coverage

A 30-meter (98.4ft) rope length allows for the protection of large areas with a single unit.

Clear Safety Messaging

Each flag is printed with "DANGER DROP ZONE"
