

BB-UB132 11KG CONCRETE PARASOL BASE

SPECIFICATION

Manufactured from a durable & weather resistant compound concrete construction, this is ideal for parasols with a pole diameter of 30/35/38mm. It comes with a locking bolt with plastic cap plus rubber grip to help protect patios & decking from scratches. The locking bolt will tighten & hold the pole securely in place & is suitable for use with stand alone parasols up to 1.5m or in conjunction with a table.

Approx Size: L36 x W36 x H28.5cm

Iron Tube: Ø4.8 x 22cm
