

Fingerless

VALUE

Tactile, flexible and extremely comfortable

Matrix® Fingerless from Polyco is a seamless knitted nylon liner with a polyurethane palm coating. It has three open fingers making it extremely tactile.

The close fitting design of the Matrix® Fingerless makes it an extremely dexterous general handling glove, and with three open fingers, it affords the user maximum sensitivity making it perfect for meticulous tasks requiring care and precision. The polyurethane palm coating provides good abrasion and tear resistance, and has an assured grip in both wet and dry conditions. The elasticated knit wrist further enhances the fit and keeps the hands free from dust and dirt. An extremely versatile glove, the Matrix® Fingerless also has the additional bonus of being incredibly good value for money.
