

P-WAVE®

The highly fragranced, simple solution to bad odours

Eco Air Freshener

The passive air freshener that packs a real punch!

Simple, highly fragranced and 100% recyclable with no aerosols or spills, Eco Air is a powerful passive air freshener that can be used standalone or inside one of our Eco Air cabinets. Ideally placed near a door or any space with good air flow, the open-air design ensures maximum surface area exposure for effective and efficient fragrance release. Best of all, the refill has been designed so that it will fit a number of other manufacturers dispensers, so that you can switch refills without having to change the units. At P-Wave® we're passionate about the environment and recognise the importance of introducing eco-friendly products into the marketplace – there really is no planet B! That's why, all of our air freshener refills are 100% recyclable - Simply place the used Eco Air refill in your plastic recycle bin after 30 days!

At a glance:

- 100% Recyclable
- Highly Fragranced
- No batteries, aerosols or spills
- Low VOC's
- Use with or without dispenser
