

2131

HexArmor®

The Hex1® 2131 is the tool you need to accomplish the task at hand. A black TP-X® palm provides a solid grip, and an advanced impact design across the back of the hand protects from light hand impacts.

Hex1® gloves are made with the same high-quality materials as our high-performance safety gloves and perform better than any mechanic's glove you've ever worn. Whether you're looking for impact protection, wet or dry grip, cold weather, or simply a shop-glove, you're sure to find a Hex1® to fit your needs.
