

PRODUCT DESCRIPTION

High quality solid rubber boot dip mat commonly known as a foot bath or well mat. Designed to combat dirt, germs & viruses and stop them from spreading. The fingertip base combined with a disinfectant solution makes it the perfect mat for removing dirt on shoes and boots.

FEATURES AND BENEFITS

- High ramp edges designed to contain antimicrobial or most sanitising chemical solutions for boot dipping
- Bevelled safety edge minimises trip hazard
- Base of foot bath boasts hundreds of rubber bristles which trap dirt and grit whilst encouraging sanitation of grip on the underside of shoes and boots
- Not suitable for use with chlorine based sanitiser
