- Shared surfaces/tools/touchscreens
- Cashiers/Clerks/Money Handling

**Ansell**

### Key Features

- The only industrial glove designed with Ionic+™, an EPA-registered antimicrobial technology - EPA Registration #70927-6
- Self-Sanitizing 360° antimicrobial protection of both the liner and coating
- Ionic+™ is permanent and lasts the life of the product
- Touchscreen compatible for use with a wide range of devices
- Compliant with EU Biocides Regulation 528/2012 for treated articles
- Designed so coating does not inhibit antimicrobial action
- Protects glove from bacterial-related odor, stain, and fabric degradation

### Vulcanization Chemical Accelerators

- Natural rubber proteins

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards & Regulatory Compliance

#### REACH Compliant

### Technologies
