

**TORNADO  
GLOVES**  
POWERED BY MCR SAFETY

## MOTION21-NM

21G cut F protective glove. Highly tactile with excellent wet, dry and oil grip. Designed for precision handling in high-risk environments.

- Cut Resistance Level F – Provides maximum protection against extreme cut hazards in high-risk working environments.
- 21-Gauge Advanced Filament Fibre Shell – Ultra-lightweight, form-fitting construction delivers superior dexterity, comfort, and reduced hand fatigue.
- Nitrile Microfoam Coating with Tacky Grip – Ensures reliable grip performance in dry, wet, and oily conditions.
- High Dexterity & Touch Sensitivity – Enables precise handling and touch-screen use without removing the glove.
- Reinforced Thumb Crotch – Enhances durability and protection in high-wear areas, extending glove service life.
- Sanitised Hygiene Treatment – Inhibits bacterial growth and odour for improved hand hygiene and wearer comfort.
