

GRIPPS®

H02032P BATTERY CATCH HOLSTER BELT RETRACTOR KIT

The GRIPPS® Battery Catch Holster Belt Retractor Kit provides a fully integrated drop-prevention system for battery-powered tools used at height. Combining the GRIPPS® Tool Grapple® With Auto-Stop, Battery Operated Arrest Holster and Battery Catch Holster, this kit provides secure tethering for both power tools and batteries without impacting usability.

The reinforced nylon and industrial-grade plastic housings are engineered for durability in harsh work environments, while the auto-retracting wire cable maintains tool readiness and reduces snag hazards. Designed for compatibility with standard work belts, the kit enables rapid connection, storage, and deployment of power tools in line with best-practice dropped-object prevention.

For instructions on each component, please download and refer to a copy of GRIPPS Tool Tether User Guide available at gripps.com under Resources.

ENGINEERED FOR DROP PREVENTION
