HyFlex™

Sustainable light-cut resistant glove

Cut | Light Duty

Delivers proven EN ISO B / A2 cut protection and long-lasting durability — helping reduce environmental impact without compromising safety or performance.

- **Advanced Yarn Innovation:** Delivers Delivers EN ISO B / A2 cut resistance without the discomfort of metal or glass fibers. No poking, no breakage – just safe, comfortable protection in a lightweight 18-gauge design.
- **Lower Carbon Footprint:** Reduces carbon emissions by 40% Made with over 50% recycled polyester recovered from post-consumer PET bottles**.
- **Highly Durable Coating:** DMF-free PU coating provides up to 4x more wear resistance than standard PU***, delaying liner exposure and prolonging usable life of the glove.
- **Certified Skin-Safe:** Free from DMF, silicone, and latex—common irritants in industrial gloves. Tested and certified by Dermatest™ and OEKO-TEX™.

*Versus standard Ansell PU gloves with the same level of protection. LCAs third-party reviewed in accordance with ISO 14040/44.
**50% is the minimum recycled content in the final product. 1 pair of 11-752 equals 1,21 standard plastic bottles (500ml, PET), based on size 9. ***Versus standard Ansell PU gloves with the same level of protection

Industries

- Automotive
- Machinery and Equipment
- Aerospace
- Manufacturing
- Infrastructure Maintenance

Applications

- Stamping
- Press shop operations
- Press injection molding
- Handling sharp metal or objects
- Inspection of parts, equipment
- General maintenance
- Assembling metal parts and components
- Packaging

HyFlex™

Sustainable light-cut resistant glove

Key Features

- **Advanced Yarn Innovation:** cut protection without metal or glass discomfort
- Recycled Yarn: over 50% rPET content reduces carbon footprint by 40%*
- **DMF-Free PU Coating:** up to 4× higher wear resistance for longer glove life**

* Versus standard Ansell PU gloves with the same level of protection. LCAs third-party reviewed in accordance with ISO 14040/44. 50% is the minimum recycled content in the final product. 1 pair of 11-752 equals 1,21 standard plastic bottles (500ml, PET), based on size 9.
** Versus standard Ansell PU gloves with the same level of protection.
