## Protect Helmet

We are excited to announce Protect Helmet (675100) that will replace Yukon Helmet (562412) with a refreshed design and contemporary look to match new requirements and features but keep the DNA of the successful style. Fully assembled and ready for use out of the box. Including head protection, visor and ear muffs. Lightweight hard hat suitable for chainsaw work and other outdoor tasks - giving essential protection for face, eyes, ears and head.

### Highlights from the new development

- Easy and quick adjustable head band and ear muffs for optimal fit
- Increased SNR value of 26 dB
- Compatible with existing visor
- Matte sportive finish

### Specifications

- Very light weight with only 730 grams
- SNR value 26 dB
- Stainless steel mesh visor (566093 same as on Yukon Helmet)
- Adjustable head size and ear protection
- 6 ventilation holes
- 6 straps with ratchet system for size adjustment 50-66 cm
- Sweatband in soft textile
- EN 397 Helmet shell
- EN 352-3 Ear muffs
- EN ISO 16321-3/C Face protection
- Packaging dimensions 29x25x20 cm

# OREGON®
