

# BioTouch (GM008\* & GM009\*)

biodegradable · AQL 1.5 · chemical tested · 2 colours  
medical grade · medium weight · nitrile · examination gloves

WITH BIODEGRADABLE TECHNOLOGY

**Physical Specifications:**

Material: Nitrile (latex free)  
Colours: Violet blue, Black  
Length: 240 mm  
Weight: 3.5 g  
Thickness: 0.07 mm  
Finish: Powder free  
Fit: Ambidextrous  
Sterile: No

**Order Codes and Size Information:**

**Violet blue**  
GM0081 | Extra Small  
GM0082 | Small  
GM0083 | Medium  
GM0084 | Large  
GM0085 | Extra large

**Black**  
GM0091 | Extra Small  
GM0092 | Small  
GM0093 | Medium  
GM0094 | Large  
GM0095 | Extra large

**Packaging:**

Each dispenser box contains 100 gloves  
Each case contains 10 dispenser boxes

**Classification:**

For more about the **Advanced** range, please **click on the image**

**Features**

- >81% biodegradation within 490 days\*
- Contains innovative biodegradable technology
- Tested to EN374 Type C
- Tested to ASTM D5511 and ASTM D5526
- AQL 1.5 and EN455 parts 1-4
- Tested to EN1186
- Nitrile formulation conforms to the hand during use
- Beaded cuff
- Manufactured with textured fingertips
- Touchscreen compatible

**Benefits**

- Environmentally friendly, much faster organic break down compared to regular nitrile, which can take over 100 years
- The technology means the biodegradation process only starts when disposed of in an active landfill environment
- Resistant to a range of chemicals
- Tested to leading biodegradation standards
- Meets medical standards including pinholes
- Suitable for contact with all food types
- Nitrile formulation conforms to the hand during use for a more comfortable fit
- Beaded cuff provides extra strength during donning and helps prevent liquid roll back
- Textured fingertips provide improved grip, particularly when working in wet or oily conditions
- Suitable for use with mobile and tablet displays without removing gloves

**Sectors**

- Food
- Automotive
- Aerospace
- Chemical manufacture and use
- Dentistry
- Dental hygiene
- Electronics
- Engineering
- Food processing
- Healthcare
- Laboratory work
- Manufacturing and assembly
- Pharmaceutical work
- Printing
- Tattoo

\* Above results are based on a real-time study. The actual biodegradation rates will vary depending on the landfill conditions and the biological activity of microorganisms surround the gloves.
