Light Duty

Boosts precision and productivity with second-skin comfort in an ANSI A6/ISO F-rated glove

- **Second-Skin Design:** Engineered with AEROFIT™ Precision Comfort Technology, an innovative, flexible foam nitrile coating delivering improved tactility, sensitivity and a more comfortable, breathable glove feel.
- **Premium Comfort:** Overwhelmingly preferred for precision handling tasks and all-day wear*.
- **Proven Productivity:** Users wearing HyFlex safety gloves with AEROFIT™ Technology completed precision tasks faster than using comparable gloves on the market*.
- **Advanced Cut Protection:** Next-generation INTERCEPT™ reinforced HPPE yarn provides reliable ANSI/ISEA 105-2024 A6 / EN ISO F cut resistance for safety when handling sharp parts.
- **Improved Compliance:** Certified skin-friendly and touchscreen compatible to reduce glove removal during shifts.

* Based on a survey of 52 glove wearers comparing Ansell gloves to the competitive gloves available on the market (May 2025); testing conducted with HyFlex 11-574 gloves. Results may vary across other gloves in the series.

Industries

- Automotive
- Aerospace

Applications

- Assembly of sharp parts
- Handling sharp metal parts
- Dry food handling & packaging

HyFlex™

11-584

Comfortable high cut protection with barehand feel

Key Features

- ♦ **AEROFIT™ Coating:** up to 30% thinner* for exceptional tactility and control.
- ♦ **Breathable 21-Gauge Liner:** delivers premium comfort in precision handling.
- ♦ **Productivity-Enhancing Design:** enables faster, more precise work.

* Versus standard Ansell glove with the same level of protection
