Evo Recycled® 20 Litre Spill Kit in Heat-sealed Bag

Evo Recycled® Spill Kit in Heat-sealed Bag.

For use on oil leaks and spills in the workplace for quick and efficient clean-up. Manufactured in Britain, EVO Recycled® redefines safety within the spill control industry. It stands as the only absorbent matting in the UK tested to BS 4790 fire retardancy standards, ensuring unparalleled safety in environments prone to fire hazards. EVO Recycled® also exceeds BS 1425 standards for material cleanliness and absorbs an average 25% more than comparable PP absorbents, cementing its position as the pinnacle of safety and quality in British Spill Control. Supplied with disposal bag for easy segregation of oily waste. Comes complete with one full tub of 50 Muckyz® Textured Wipes

Suitable for use with:

- Coolant
- Antifreeze
- Oil
- Water
- Weak chemicals
- Solvents

EVO spill products provide a unique solution for companies pursuing higher ethical and environmental standards without compromising performance and value.

- Each product in the range is manufactured from recycled or sustainable material
- All EVO products are manufactured in Britain with a far smaller carbon footprint than the vast majority of Spill Control products produced overseas
- EVO poly-wrap & box packaging recyclable

E & OE. 1-25. BS4790 and BS1425 information only applies to Evo Recycled® pads and rolls. Other parts are not yet tested to these standards. EVO Recycled® absorbents will not counteract flammable properties of any liquid absorbed into the material. If a spill or leak occurs, act according to your existing fire safety procedures.
