

Site Mate

New Product Range

CHOOSING FYTERTECH

- Leaders in Spill Control
- UK-Manufactured
- Service Reliability

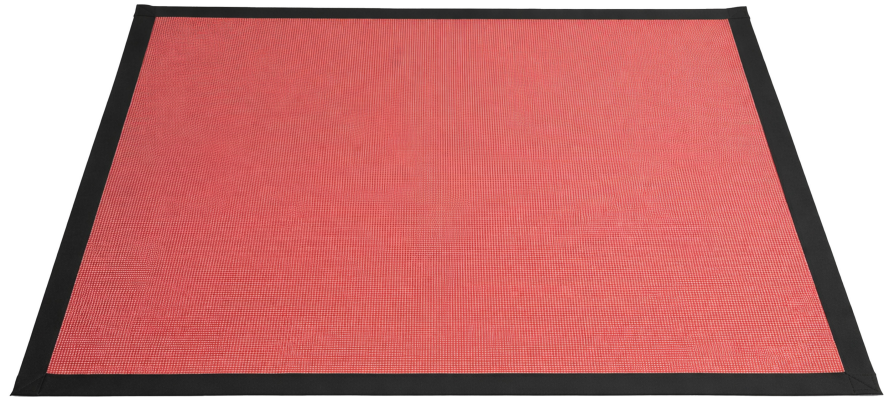

Site Mate Features

- Selective oil-absorbing core captures hydrocarbons while repelling water
- Durable surface mesh protects internal absorbent layers from wear and traffic
- Reinforced perimeter edge maintains shape and prevents fluid escape
- High-capacity fibre matrix maximises oil uptake and retention
- Secondary oil-locking layer reduces surface pooling and migration
- Tough backing layer contains absorbed liquids and helps prevent ground contamination

FyterTech Site Mate delivers reliable, high-performance spill control wherever you operate. Designed for use beneath machinery, refuelling points and maintenance areas, it captures hydrocarbons at source, while repelling water.

Site Mate combines advanced absorbent technology with a durable outer structure to withstand machinery and outdoor conditions.

Whether for construction sites, industrial facilities or temporary works, Site Mate provides a simple, effective way to manage spills responsibly and professionally.

Product Code	Description	Area (m ²)	Absorption (litres)
48-0600	Site Mate Absorbent Mat 600 x 400mm	0.24	4L
48-1000	Site Mate Absorbent Mat 1000 x 600mm	0.6	10L
48-1600	Site Mate Absorbent Mat 1600 x 1200mm	1.92	31L
48-2000	Site Mate Absorbent Mat 2000 x 1400mm	2.8	45L
48-06MP	Site Mate Absorbent Mat 600 x 400mm - 5pk	0.24	20L
48-10MP	Site Mate Absorbent Mat 1000 x 600mm - 2pk	0.6	20L
